

Francesc Barnola

DevOps Engineer · Cloud Infrastructure & AI Specialist

Campins, Barcelona, Spain 📍 (+34) 676 461 356 ✉️ francesc@barnola.cat 🌐 fbarnola 📧 barnolacesc

Professional Summary

DevOps Engineer owning cloud infrastructure, CI/CD, and SOC 2 plus ISO 27001 compliance for a fintech platform serving around 28 engineers. Sole operator of a multi-account AWS Organization and a GCP cross-cloud disaster recovery environment, with full Terraform and GitHub Actions ownership plus production LLM and automation experience. AWS Certified Solutions Architect - Associate, currently pursuing an MSc in Cybersecurity and Privacy.

Experience

Fundcraft

DevOps Engineer

Girona, Spain

Feb. 2025 - Present

- Sole operator of a multi-account AWS Organization and a GCP cross-cloud DR environment; own all Terraform IaC and GitHub Actions OIDC CI/CD for around 28 developers
- Own SOC 2 and ISO 27001 implementation through Vanta, SonarCloud, Dependabot, GuardDuty, CloudTrail, and annual third-party penetration testing
- Designed a QA Aurora Serverless v2 warm pool projected to cut database costs 35–55% and led an EKS-versus-ECS cost analysis that anchored compute strategy
- Built PostgreSQL-to-ClickHouse CDC and AWS-to-GCP nightly sync pipelines for analytics workloads on Odoo and FreeScout
- Operate Datadog, Sentry, CloudWatch, Fluent Bit sidecars, and Lambda log forwarders for end-to-end observability
- Rolled out Claude Code with per-user budget controls and built FC-Code-Medic to convert Sentry incidents into AI-drafted pull requests
- Led the Confluence-to-Notion migration and maintain the internal developer portal, Mermaid architecture diagrams, and DevOps onboarding

SALICRU S.A.

Embedded Systems Engineer

Santa Maria de Palautordera, Barcelona

Sep. 2023 - Feb. 2025

- Built automated firmware testing frameworks and reusable communication libraries for hardware protocols
- Wrote performance-critical microcontroller firmware in C and implemented diagnostic and monitoring tooling for embedded systems

SALICRU S.A.

Software Engineer

Santa Maria de Palautordera, Barcelona

Feb. 2022 - Jul. 2023

- Built a Python desktop application with PySide2 and PyQt for template-based automatic code generation, backed by relational database integration to standardize embedded development

Certifications

Earned: AWS Certified Solutions Architect - Associate; Claude on Amazon Bedrock — Anthropic

Operational: SOC 2 and ISO 27001 control implementation and audit support

Technical Skills

AI & LLM Engineering: **Tooling:** Claude Code, Anthropic API, Cursor, Gemini CLI, n8n; **AI Cloud Platforms:** AWS Bedrock, Google Vertex AI, AWS Kendra; **Experience:** Local/cloud LLMs and AI automation pipelines

Cloud Platforms & Services: **AWS:** Organizations, IAM Identity Center, VPC, ECS Fargate, Lambda, CloudFront, Aurora PostgreSQL, RDS, ElastiCache, OpenSearch, S3, KMS, Secrets Manager, SSM, CloudWatch, GuardDuty, CloudTrail, ACM, DMS, Bedrock, Kendra

Google Cloud: GCE, Cloud DNS, GCS, BigQuery, Secret Manager, Vertex AI

Platform Engineering: Terraform, GitHub Actions (OIDC), GitLab CI, Docker, Docker Compose, Datadog, Sentry, CloudWatch, Fluent Bit, Grafana, Prometheus

Security & Compliance: SOC 2, ISO 27001, Vanta, SonarCloud, Dependabot, IAM least-privilege design, AWS Secrets Manager, GCP Secret Manager, ACM, Let's Encrypt

Programming & Data: **Primary:** Python, Bash, C; **Secondary:** JavaScript, Java, PHP, Lua; **Data:** PostgreSQL/Aurora, ClickHouse, Redis, MongoDB, RabbitMQ, OpenSearch, BigQuery, AWS DMS

Tooling & Collaboration: Git, GitHub Enterprise org admin, GitLab, Jira, Notion admin, Mermaid, NVim

Education

2024 - Present: MSc in Cybersecurity & Privacy, UOC. **Master's Thesis:** Fintech security master plan aligned with SOC 2 and ISO 27001

2017 - 2023: BSc in Computer Engineering, UdG (ICT). **Final Project:** Code generation tool for microcontrollers

Languages: Catalan (Native Speaker), Spanish (Native Speaker), English (Advanced (C1))
